

A Message from the Office

Greetings from the Lifesaving Society! I hope all is well wherever this edition finds you. As you can probably imagine, the office has been extremely busy this summer and has not yet begun to slow down. We would however like to take the time to celebrate some of our successes this year as both Drowning Prevention Week and our Northern Outreach Program continue to produce great participation numbers.

In the upcoming months, look for announcements regarding next years Annual Water Safety Conference, Investiture and much more. As mentioned in previous editions, if there is anything you would like to promote, please contact the office and we would be happy to include your information in Lifelines

Drowning Prevention Week

As mentioned above, from all the indications we had another very successful Drowning Prevention Week with facilities around the province taking time out of their busy schedules to include specific messaging about water safety to their patrons. A big thanks goes out to all those programmers, recreation directors, pool managers, lifeguards and volunteers (and anyone else whom we missed) who did such an exceptional job. Of special mention - a HUGE thanks to our Regional Consultants for getting facilities motivated and ready to go with their messaging.

Action from Drowning Prevention Week activities across the province.

Thanks Kim!

We would also like to extend our appreciation and best wishes to our former Member Services Manager Kim Fleischhaker as she has taken a position at the YMCA in Regina. Kim was a part of the office staff since 2003 and served in several different capacities. She still remains a vital volunteer to the Society and we hope she continues to do so for years to

Thanks Saskatchewan!!!!

Northern Outreach

Starting in July, our Northern Outreach instructor Destin Ash once again (his second summer with the program) headed up north to deliver water safety education and training to several northern communities. Destin taught children and adults alike learn-to-swim skills and water safety skills that promote the Swim to Survive Standard.

As per usual, Destin did an exceptional job and both the communities and the staff at the office feel great about the work done.

Thank you Destin for your enthusiastic work this summer in helping the Lifesaving Society to meet its mission of drowning prevention!
